Dashboard Design

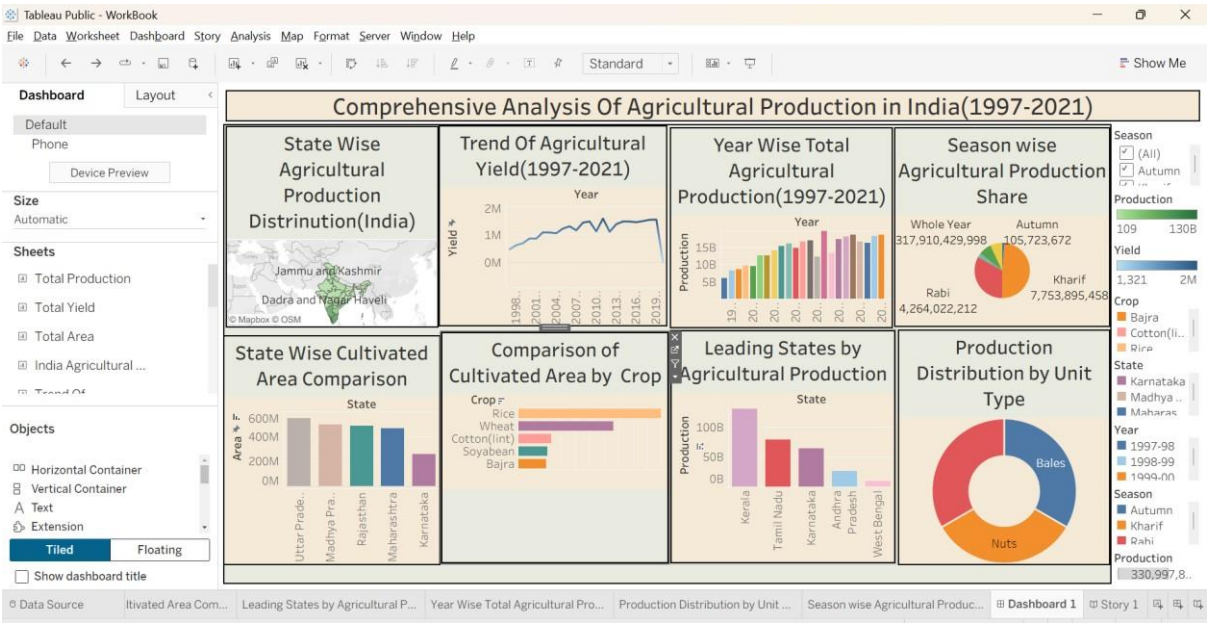

Date	24 August 2026
Team ID	Individual
Project Name	India's Agricultural Crop Production Analysis
Maximum Marks	5 Marks

Creating an effective dashboard involves presenting agricultural data in a clear, relevant, and easy-to-understand format. The dashboard was designed using Tableau to help users analyze India's agricultural crop production from **1997 to 2021**.

Activity 1: Interactive and visually appealing dashboards

The dashboard includes the following features:

- **Clear and intuitive layout**
- **KPI cards** for Total Production and Total Yield
- **India Map** for state-wise production
- **Horizontal Bar Chart** for top states by production
- **Grouped Bar Chart** for cultivated area by state and crop
- **Line Chart** for year-wise production trends
- **Pie and Donut Charts** for category distribution
- **Interactive filters and slicers**
- Filters for **State, Crop, Season, Production, Year, and Area**
- Clean **beige/cream background**
- Interactive analysis for easy exploration

Note: Highlight the major outcomes in form of bullet points

Major Outcomes

- **Total Production and Total Yield:** KPI cards provide a quick overview of India's agricultural production.
- **State-wise Production:** Karnataka has the highest total production in the analysis.
- **Cultivated Area:** Uttar Pradesh leads with approximately **542.67 million hectares**, followed by Madhya Pradesh, Rajasthan, and Maharashtra.
- **Crop Analysis:** Rice and wheat are prominent in northern states, while cotton and soyabean are important in central and western regions.
- **Season Analysis:** The dashboard helps compare agricultural production across different seasons.
- **Year-wise Trend:** The line chart shows changes in agricultural production from **1997 to 2021**.
- **Interactive Filtering:** Users can select State, Crop, Season, Year, Production, and Area to perform detailed analysis.

Activity 2

The completed dashboard was published on **Tableau Public** so that users can access and interact with the agricultural analysis online.
